

VIJAYA BHASKAR REDDY PAMBI

Syracuse, NY | +1 (806) 559-5917 | vijaypambi015@gmail.com | [LinkedIn](#) | [Portfolio Website](#)

PROFESSIONAL SUMMARY

Healthcare Data Analyst with experience in healthcare analytics, analyzing healthcare claims and clinical datasets to support operational and clinical decision-making, skilled in SQL, Python, and Power BI for data extraction, ETL automation, and dashboard development. Experienced in improving reporting efficiency, ensuring data quality, and working with healthcare data standards in HIPAA-compliant environments. Passionate about leveraging healthcare analytics to improve organizational performance and patient outcomes.

TECHNICAL SKILLS

Programming & Databases: Python (Pandas, NumPy), SQL (T-SQL, PostgreSQL)

Visualization & Reporting: Power BI (DAX, Power Query), Tableau, Excel (Pivot Tables, VBA)

Data Engineering: ETL Processes, Data Cleaning, Data Modeling, Clinical Data Mapping

Healthcare Data: HL7, FHIR, ICD-10-CM, CPT, LOINC, Healthcare Claims Data

Governance: EHR Data Structures, HIPAA Compliance, Patient Data Privacy

PROFESSIONAL EXPERIENCE

Data Analyst Intern | Excellus BlueCross BlueShield | Rochester, NY | Jan 2025 – Dec 2025

- Developed a Power BI Claims Productivity Dashboard using DAX measures to track daily claims processing throughput, reducing manual reporting latency by 30%.
- Optimized SQL stored procedures querying millions of healthcare claims records, improving query execution performance by 40%.
 - Designed a star schema data model integrating SQL Server and Excel datasets to support accurate cross-filtering for claims and utilization reporting.
- Automated Python-based data validation workflows to detect discrepancies in provider IDs and member eligibility, reducing data errors by 15%.
- Collaborated with claims operations teams and business stakeholders to define reporting requirements and improve productivity monitoring.

Data Analyst | Vasista Crop Science | Telangana, India | Oct 2022 – Dec 2023

- Built Python ETL pipelines to clean and standardize agricultural yield datasets, creating a centralized SQL database that improved data retrieval speed by 25%.
- Developed Power BI dashboards analyzing regional distribution and supply chain performance, enabling leadership to identify operational bottlenecks.
- Performed data analysis on production and distribution datasets to support data-driven operational decision making

Data Analyst Intern | SMS Technologies Pvt Ltd | Telangana, India | Jan 2022 – Aug 2022

- Wrote SQL queries to extract and transform customer datasets from legacy systems during a large-scale platform migration.
- Built Excel pivot-table dashboards to analyze customer churn patterns and support management retention strategies.
- Cleaned and prepared datasets using Python to improve data quality for downstream analytics and reporting

KEY PROJECTS

FHIR-Based Patient Risk Stratification System | Python, SQL | Jan 2025 – May 2025

- Built a Python pipeline to parse FHIR JSON healthcare records and integrate EMR data into a centralized SQL database.
- Developed a patient risk stratification algorithm to identify individuals with chronic conditions for targeted care management.
- Standardized patient datasets to improve data integrity and interoperability across healthcare systems

Healthcare Readmission Prediction Model | Python, Machine Learning | Aug 2024 – Dec 2024

- Developed a logistic regression model achieving 85% accuracy in predicting hospital readmissions.
- Analyzed patient factors including length of stay, comorbidities, and prior admissions to identify key risk drivers.
- Visualized model results to support providers in identifying high-risk patients and reducing readmission penalties

EDUCATION

Master of Science in Bio Health Informatics | SUNY Oswego, NY | Dec 2025

Relevant Coursework: Python for Data Science (Pandas/NumPy), SQL (PostgreSQL), Power BI (DAX/Power Query), & Applied Statistics, Database Management Systems, Systems Analysis, & Predictive Modeling.

Bachelor of Science (Hons.) in Agriculture | Lovely Professional University, India | Sep2023
